### ***Clinic Information Guide***

EMGC supports the development of riders through rider skills clinics, instructed by experienced local or international Clinicians. These clinics occur annually and may be organized by the EMGC Education Committee and/or the Board of Directors.

If additional clinics are desired over and above those organized by the Education Committee and/or the Board of Directors, the EMGC Board of Directors may be able to collaborate with EMGC members to support their independent organization of clinics. EMGC Board of Directors requires the Clinician to organize the Clinic with the Host location independently, including advertisement, sign-up forms, etc.

In addition, EMGC Board of Directors require the following information **no later than one month in advance of the first clinic date:**

Clinic Date(s):

Type of Clinic(s):

Number of Clinician(s) (Names, biographies):

Maximum Number of Participants:

Mileage fee for Clinician:

Gross Revenue:

Organizing a set of clinics is not a one-size-fits-all approach. Fees for clinic participation may vary according to the fees of the Clinician.

It is highly preferred for EMGC members to provide a proposal of multiple confirmed dates to the EMGC Board of Directors to allow the preparation process to occur once, instead of submitting a new proposal for each clinic date. EMGC Board of Directors will provide a waiver to the Clinician, which must be signed and returned by all clinic participants prior to the date of the clinic(s).

***To Submit a Clinic Proposal, please email the Board of Directors at [equinemountedgamescanada@gmail.com](mailto:equinemountedgamescanada@gmail.com)***
